Dear Lisa ,

Please pass to relevant local authorities ,

As per instructions from my HO, vessel changed over to HFO as of 14th feb 1630 hrs (2130Z) in posn Lat 41 29.5 N and 068 50.7W. This was carried out because vessel is critically low on MGO stock due to not being able to bunker at Boston on 14/PM. Boston was closed because of the approaching winter storm. Vessel exercising due diligence and caution carried out this change well before the approach of the storm as same would be not prudent to carry out while vessel was in the storm.

Vessel is presently south bound and will try and ride out the storm lying within 100 – 120 miles SE of New York.

Relevant entries have been made in deck log / engine log and ORB part 1.

Thanking you and Warmest regards,

Capt Navpreet Singh Mann, Master / M.T. Macrsk Katalin IMO : 9431317
